

STANDING COMMITTEES:

The Morningside Commons Landscape Committee is dedicated to creating pleasant landscapes by maintaining gardens and planting trees and shrubs that add to the beauty of our neighborhood and enhance property values. The Committee is composed of knowledgeable gardeners who volunteer their time. The Committee is proud to say that Morningside has been designated a certified Wildlife Habitat through the Vermont Natural Resources Council in the National Wildlife Foundation Network. Contact Bonnie Girvan (girvangardens@gmail.com; 908-307-1423) with any questions or interest in volunteering.

The Groundworks Shelter Committee meets monthly to establish and maintain direct lines of communication between Groundworks Shelter and Morningside Commons representatives. The meetings provide a format for discussing and addressing comments, questions and concerns, as they arise. The meetings are aimed at building and fostering trust, respect, safety and cooperation.
